

Testimonials for Community Projects

Name: En. Abdul Wahab bin Omar

Age: 66 years

2014 CCASTP, Perumahan Awam Seri Sabah 3A

En. Abdul Wahab bin Omar revealed his emotional turmoil as he battled early stage colorectal cancer last year. He is also a beneficiary from EMPOWERED's 2014 CCASTP. During his moving testimony to the residents of PPR Hilliran Ampang, he shared "I was overwhelmed by fear when I was diagnosed with colorectal cancer. I was confused over whether or not to continue my treatment, as some of my family members had advised me to go for traditional medicine. But I had refused to consider alternative treatment. I had lost my sister to cancer as she sought alternative therapies. EMPOWERED's volunteers treated me like family. They broke bad news to me with so much tact to lessen my shock and pain. They were there for me through my hospital visits and even my surgery." Since his cancer diagnosis, En. Abdul Wahab has been on the road to complete recovery after his curative surgery at Hospital Selayang last July.
