

**Dr. Fitzgerald A/L Henry,
Consultant Surgeon, Hospital Selayang
Speaker for EMPOWERED's 2014
Colorectal Cancer Awareness Day Workshop**

I decided to help EMPOWERED for this event/ project to assist in the early detection of cancers as it's a worthy project especially since it caters to the underprivileged.

The response (of the Awareness Day) was good and the participants keen to acquire knowledge.

I feel that this is a good project and if time permits, I will help for future EMPOWERED events again.

Dr. Fitzgerald Henry during the Awareness Day presentation for his session on 'Colorectal Cancer: Early Detection Saves Lives'.

Dr. Fitzgerald Henry and a token of appreciation from EMPOWERED.
